The AI attempted to navigate to the Unsplash homepage to access the Wallpapers section but was immediately blocked by the site's security measures. As a result, the workflow could not proceed past the initial access denied error.

Oh noes!

Access Denied: error code 4d1dbaddfcof385.

Discovered Workflow: Unsplash Wallpaper Click (1) -- Partial

- Verify that a user can navigate to the Wallpapers topic page from the homepage.
- The agent started on the Unsplash homepage and proceeded to navigate directly to the Wallpapers topic page. Although the goal was to click a specific wallpaper, the execution concluded after reaching the category page.
- The navigation to the Wallpapers topic was performed via direct navigation (URL change) rather than a recorded element click in this specific trace.
 - Ensure the page loads the topic header to confirm successful navigation to /t/wallpapers.
