Feature Area: Downloads

Goal: Unsplash Wallpaper Click

Generated: July 14, 2026 at 04:24 PM

Confidence: 100%

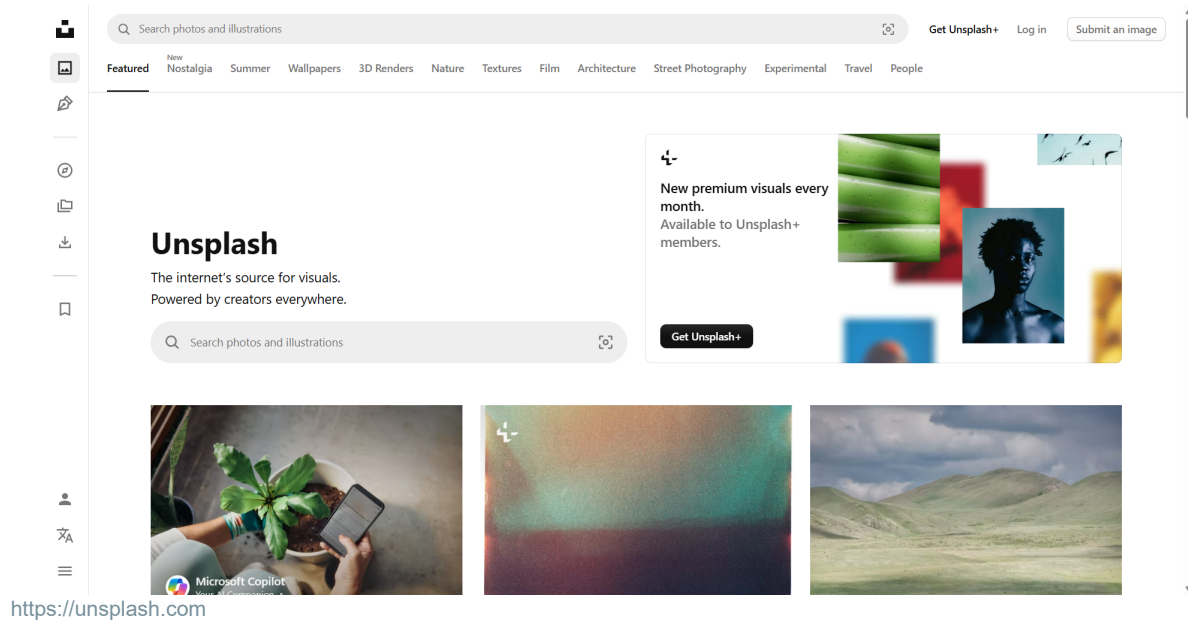

The AI successfully navigated to the Unsplash homepage and accessed the dedicated Wallpapers category. It then selected a specific image to verify that the detailed view and download options load correctly for the user.

Step-by-Step Walkthrough

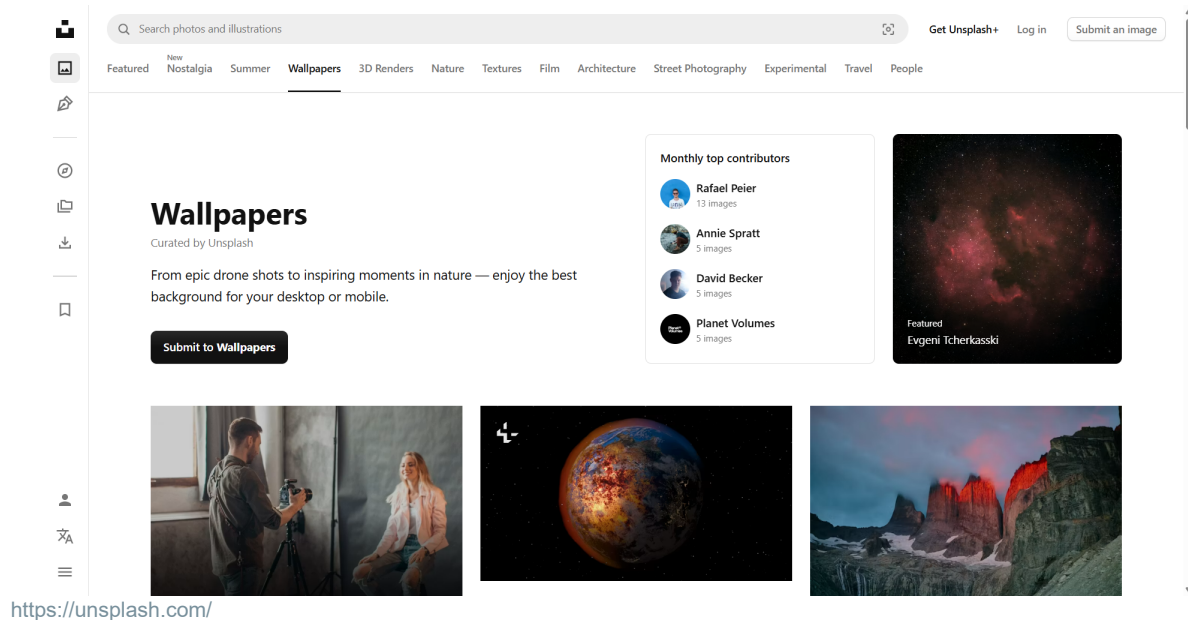

1. Navigate to Unsplash Homepage

The AI starts the workflow by loading the Unsplash homepage to access the main navigation menu.

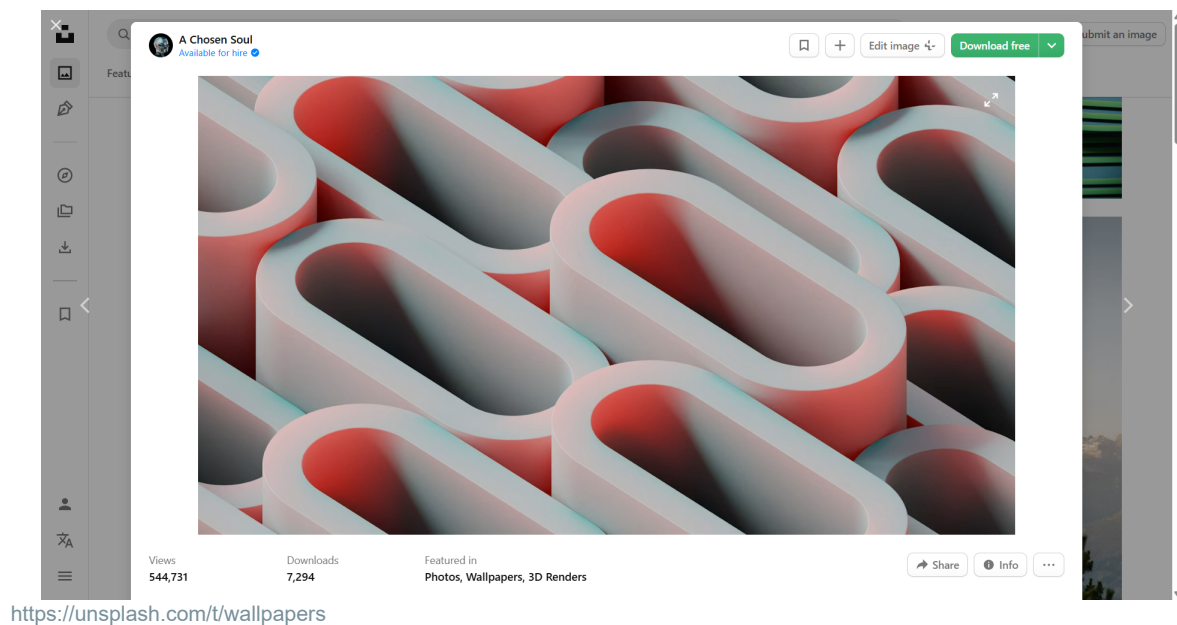

2. Select Wallpapers Category

The AI clicks on the 'Wallpapers' tab to filter the image feed to category-specific content.

3. View Specific Wallpaper Details

The AI selects the 'Interlocking rounded shapes' image, opening the detailed view with download and sharing options.

Discovered Workflow: Unsplash Wallpaper Click - Complete User Journey

Verify that a user can navigate to the Wallpapers category and select a specific wallpaper to view its details.

The agent started on the Unsplash homepage, navigated to the 'Wallpapers' topic page using the navigation link, and then clicked on a specific wallpaper titled 'Interlocking rounded shapes' to view its full details.

- Use page.goto with waitUntil: 'domcontentloaded' for the initial load.
- The wallpaper selection uses a role-based link selector which is robust for accessibility.
- Verify navigation by checking the resulting URL patterns for '/t/wallpapers' and the specific photo ID.
